"Your Bi-Weekly Construction Update"

Construction Update:

Volume 1, Issue 11, 11/13/09

The roof structure is complete and installation of the roofing is taking place during every dry day available. We will take advantage of the weather tomorrow and finish up the roofing on the Social Hall. The Office area was recently tented on the outside so we can finish cleaning and sealing the CMU. In the interior, we continue the mechanical, electrical, and plumbing rough-in.

11/03/09 - Social Hall

11/03/09 - Social Hall Roof Structure

11/05/09 - MEP Rough-in
