"Your Bi-Weekly Construction Update"

Volume 1, Issue 2, 7/3/09

Construction Update:

Since our last update we have excavated all the peat and replaced it with structural fill, finished clearing and grubbing the soccer field, and excavated all the footings. The team is now working on installing the formwork for the footings. This formwork was pre-built in the previous weeks during tree removal and peat excavation in order to increase efficiency.

06/23/09 - Excavating the remaining peat

06/23/09 - Grading & compacting the building pad

06/23/09 - Pre-built footing forms

06/29/09 - Footing Excavation

06/29/09 - Footing Excavation

06/29/09 - Former Soccer Field

06/29/09 - Footing Formwork

06/29/09 - Footing Formwork

A Look Ahead

Next week the following activities will be taking place:

- Forming the footings
- Utilities
- Plumbing & electrical underground
