"Your Bi-Weekly Construction Update"

Construction Update:

Volume 1, Issue 9, 10/16/09

The much anticipated Soccer Field is now complete and looking better than ever. As of today, we are at (3) weeks growth. Installation of the roof structure is complete in the areas around the Social Hall and this week we started stockpiling the roofing material. The cleaning of the CMU is nearing completion and the masons are finishing up their final touches. This really is a site to see.
